

UN@HABITAT FOR A BETTER URBAN FUTURE

UN-HABITAT REPORT

Cities and Pandemics: Towards a more just, green and healthy future

LAUNCH

Tuesday 30 March 2021

2:30 - 5 pm East African Time (11:30 - 2 pm GMT)

Panel I.

and learnings from responses to COVID-19 in cities one year on with the pandemic Panel II.

'New normal' for future cities and communities. Informed by the pandemic, how to move towards a 'new social contract' that fosters rights-based, well-planned, inclusive, climate resilient cities

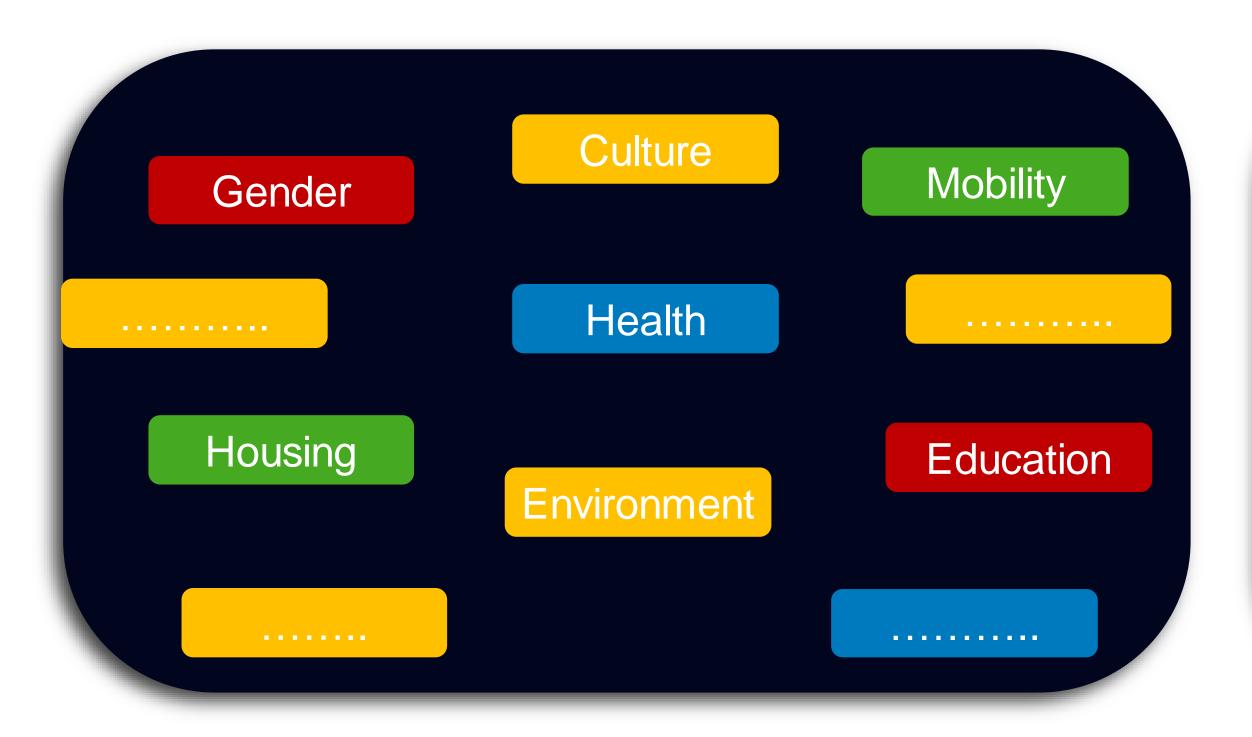

SOCIAL-ECONOMIC-ENVIRONMENTAL Sectorial Policies and Programs

SPATIAL – TERRITORIAL Urban planning and governance

Right to the City New Urban Agenda • Urban form (Determinant of Fair distribution of inclusion & productivity factor) resources • Land use planning tool to maximize Diversity and social, economic and cultural delivery and access to rights, services & opportunities equity Connectivity Inclusive Governance Mix of Uses Social Mix Public Spaces

Evidence base - Impact measure

Territorial Approach to Inclusion and Prosperity

factor)

The Urban Inclusion Marker new!

It measures the level of inclusion of a city and its potential contribution to integration and prosperity, in terms of facilitating access to goods, services and opportunities to all citizens, in line with the notion of the "right to the city" and the fundamentals recommended by the NAU of a prosperous and inclusive city.

Affordable quality housing and services

Employment and economic opportunities

Health and clean environment

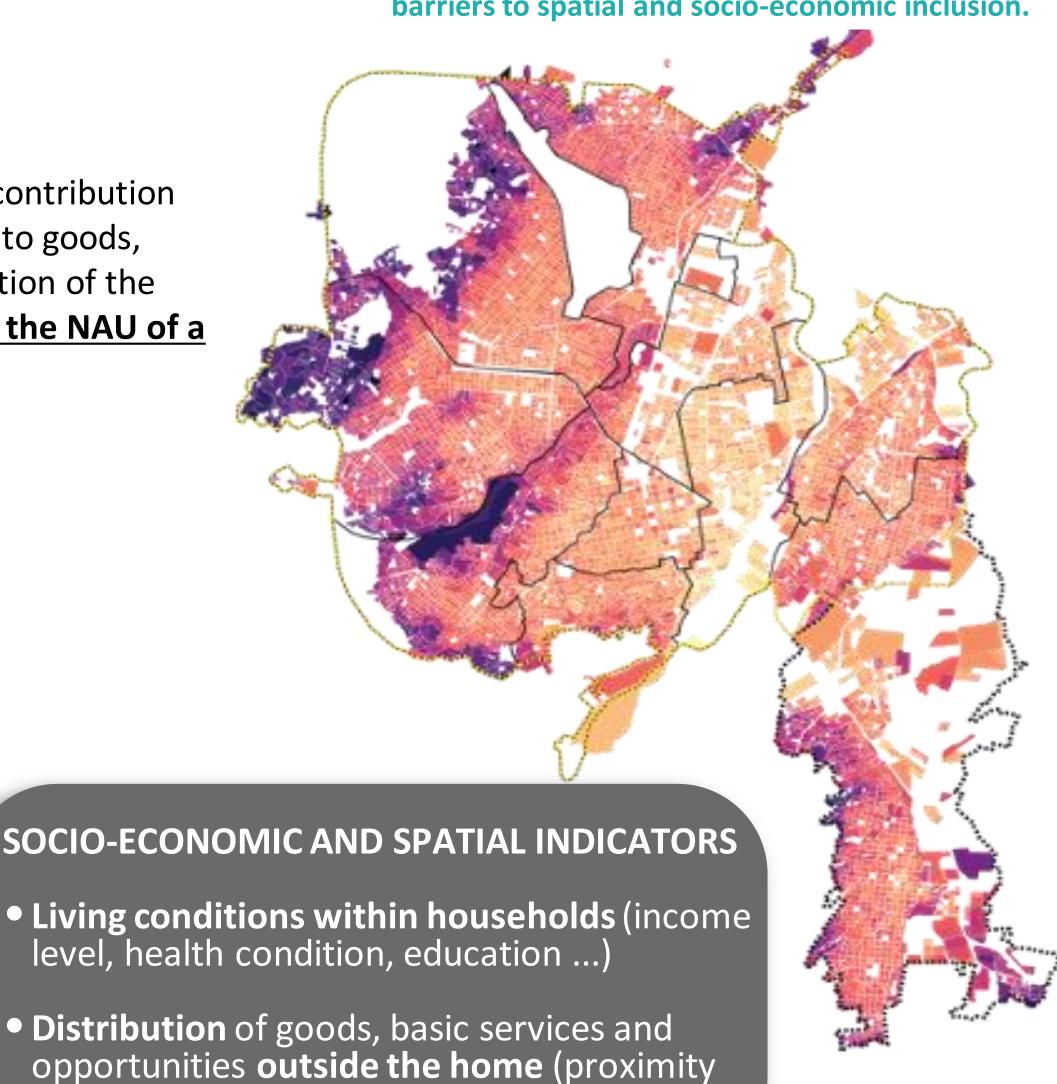

Education, diversity and culture

Public space, safety, vibrant urban environment

This map identifies areas that concentrate deficits and barriers to spatial and socio-economic inclusion.

Territorial Approach to Inclusion and Prosperity

The Urban Inclusion Marker new!

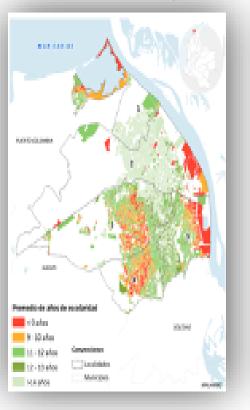

- Monitoring tool through the baseline scoring
- Tool for decisión-making, prioritization of investments and impact measure
- The scoreboard allows for thematic analysis by layers to identify performance levels of specific areas

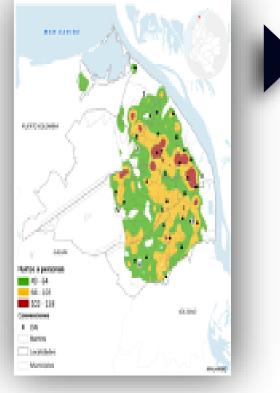

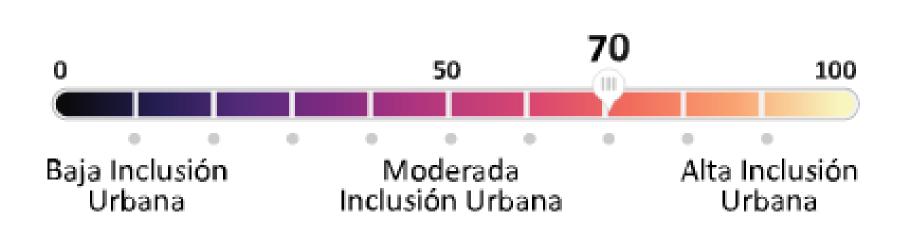

Salud y bienestar

Metropolitan Area – city of Barranquilla

Planning Instruments

- Formulation of Plan Estratégico Metropolitano de Ordenamiento **Territorial**
- Strengthening Plan Integral de Desarrollo Metropolitano.
- "Avoid the conurbation of the metropolitan territory by strengthening the peripheral centralities, through transversal integration and the structuring of a transition zone under a scheme of functional and spatial integration of the metropolitan order, ensuring conservation and recovery of strategic ecosystems." (PIDM-DMOT 2013).

Interventions

- Reconfigure existing road profiles to allow for different types of mobility and to allow for changes of transport systems in an efficient grid.
- Sustainable urban mobility: to enhance the facilitating element of active urban mobility (pedestrian and bicycle) and as spaces that complements the city's green infrastructure.
- Define structuring axes of alternative mobility to facilitate access to urban centrality and opportunities.
